PROFILE

Analytical and detail-oriented BCA graduate with a CGPA of 9.48 and professional experience in data analytics, data operations, and quality management. Proficient in Python, SQL, Advanced Excel, and Power BI, with a strong foundation in machine learning, data visualization, and statistical analysis. Experienced in handling large datasets, performing data validation, identifying discrepancies, and managing time-sensitive deliverables. Possesses strong problem-solving and analytical skills, with a keen interest in transforming complex data into actionable business insights and supporting data-driven decision-making.

SKILLS

Languages — Python | SQL | Java

Web Technologies — HTML | CSS | JavaScript | Flask

Data Visualization — Power BI | Tableau | MS Excel (PivotTables, VLOOKUP)

Machine Learning & AI — Scikit-learn | LSTM | Deep Learning | NLP

Digital Tools — Canva | Meta Business Suite | WordPress | cPanel | Google Analytics

Productivity & Collaboration — VS Code | Google Colab | Git | MS Word | MS PowerPoint

Professional Skills — Project Management | Analytical Thinking | Communication | Teamwork

EDUCATION

Bachelor of Computer Applications (BCA) 10/2022 – 06/2025
Vivekananda Institute of Professional Studies Delhi
CGPA: 9.48

CBSE – Senior Secondary: Science Stream (Non-Medical) 04/2021 – 03/2022
Jaspal Kaur Public School Delhi
Percentage Scored: 86.8%

CBSE – Secondary Education 04/2019 – 03/2020
Jaspal Kaur Public School Delhi
Percentage Scored: 93.6%

EXPERIENCE

Data Operations Analyst – NielsenIQ (NIQ) 12/2025 – Present

- Received the NIQ Thumbs Up Award for managing critical coding and MDQC activities while consistently delivering strong productivity and quality results.
- Assumed end-to-end deadline management for an entire sector within six months of joining, tracking progress, coordinating deliverables, and ensuring timely submissions.
- Managed time-sensitive coding, MDQC, and sector-wide deliverables with a strong focus on data accuracy, accountability, and operational quality.
- Analyzed and validated retail and consumer datasets using Excel PivotTables, VLOOKUP, quality checks, and internal data-management tools.

Digital Marketing Associate (Intern) – Salo Orthotics 08/2025 – 10/2025

- Managed social media, website content, and SEO activities to strengthen online visibility.
- Created campaign content using Canva and tracked performance through Meta Business Suite.
- Contributed to growth of 450+ organic Facebook followers, strengthening audience engagement and brand visibility.

Data Analytics Summer Intern – IBM SkillsBuild (Virtual) 06/2024 – 08/2024

- Analyzed market trends for client segmentation using Python and Excel.
- Built dashboards and delivered findings to mentors as part of a five-member team.

Content Head – Samvaad, Literary Society (VIPS) 10/2022 – 10/2023

- Managed content creation and editing for events and reports.
- Organized campus literary events with 100+ participants.

PROJECTS

FactShield – Fake News & AI Content Detection Platform
Tech Stack: Python, Flask, Scikit-learn, ResNet18, NLP, JavaScript, NewsAPI, Google Trends

- Developed a full-stack Flask app using LSTM and ResNet18 to detect fake news and deepfakes, with reported accuracy of 85%.
- Integrated NewsAPI and Google Trends for real-time credibility checks.
- Built a user-friendly interface with feedback functionality; tested by 15+ users.

StockMinds – Machine Learning-Based Stock Market Website
Tech Stack: Python, Flask, Random Forest, yFinance, Pandas, Matplotlib, Scikit-learn, HTML/CSS

- Built a Random Forest model for stock-direction prediction, with reported directional accuracy of 78%.
- Developed a dashboard showing live market trends for 15+ NIFTY stocks.
- Visualized stock trends and model predictions using yFinance and Matplotlib.

Addressing Crop Failure Risks for Farmers
Tech Stack: Python, Pandas, NumPy, Matplotlib, Seaborn, Excel

- Analyzed crop datasets to identify seasonal failure patterns and regional risk factors.
- Visualized yield correlations and proposed analysis-led recommendations for improving prediction accuracy.
- Collaborated in a five-member team and presented insights to faculty mentors.

The Eleventh Hour – Mock E-commerce Site
Tech Stack: HTML, CSS, JavaScript, PHP, MySQL

- Developed a responsive site for product browsing, registration, and user feedback.
- Used PHP and MySQL to support data storage and form validation.

CERTIFICATES

- Human-Computer Interaction — NPTEL (IIIT Delhi) — Top 1%
- Gen AI Exchange Program — Google Cloud
- Joy of Computing with Python — NPTEL (IIT Madras) — Top 5%
- Privacy & Security in Online Media — NPTEL (IIIT Hyderabad) — Elite + Silver
- Computer Vision and Image Processing — NPTEL (IIT Guwahati) — Elite
- Ethical Hacking — NPTEL (IIT Kharagpur)
- Natural Language Processing — NPTEL (IIT Kharagpur)
- Google Analytics — Google
- AI Bootcamp (Machine Learning) — IBM SkillsBuild
